

StatePattern_Toker_Demo

```

public Token getTok()
{
    Token tok = null;
    while(!isDone())
    {
        tok = state_.getTok();
        state_ = state_.nextState();
        if (!isWhiteSpaceToken(tok))
            break;
    }
    return tok;
}

```

- Tasks:**
1. Factor into packages using SRP
 2. Add classes needed to meet reqs.
 3. Implement simple, but complete, demo of req.
