

```

public Token getTok()
{
  Token tok = null;
  while(!isDone())
  {
    tok = state_.getTok();
    state_ = state_.nextState();
    if (!isWhiteSpaceToken(tok))
      break;
  }
  return tok;
}

```

Tasks:

1. Factor into packages using SRP
2. Add classes needed to meet reqs.
3. Implement simple, but complete, demo of req.
