

## Stream Adapter for Comm

```

class oCommStreamAdapter : private CommStreamBuf, public std::ostream
{
public:
  oCommStreamAdapter(EndPoint to, EndPoint from)
    : CommStreamBuf(to, from), std::ostream((CommStreamBuf*)this) {}

  void close() { closeComm(); }
private:
  SocketSystem ss; // declaration needed for Comm's Socket Library
};
  
```
