

Testing TestUtilities Package

=====

```
passed -- "test_always_passes"  
failed -- "test_always_fails"  
failed -- "test_always_throws"  
-- this test always throws --
```

```
test input = "#1"  
test output = "result#1"  
-- deleting CodeToTest  
passed -- "testing CodeToTest"
```

```
test input = "#2"  
test output = "result#2"  
-- deleting CodeToTest  
passed -- "testing CodeToTest"
```

at least one test failed

```
-- deleting TestPasses  
-- deleting TestFails  
-- deleting TestThrows  
-- deleting TestCode  
-- deleting TestCode
```
