

Demonstrate Reference Counted Components

=====

```
-- creating original component --  
  AddRef: refCount = 1  
  component doing its thing  
-- creating a new instance of component --  
  AddRef: refCount = 1  
  component doing its thing  
-- making alias of the new component --  
  AddRef: refCount = 2  
-- releasing original component --  
  Release: refCount = 0  
  Component being destroyed  
-- releasing new component --  
  Release: refCount = 1  
-- releasing alias of new component --  
  Release: refCount = 0  
  Component being destroyed
```
